

I CLAIM:

1 1. A compartmentalized band, comprising:

2 a first material stretchable along its length in
3 forming an encircling band of predetermined width;

4 a second material of stretchable length overlying at
5 least a portion of the length of said band, and of a width equal
6 to or less than said predetermined width;

7 and means securing said second material to said first
8 material at a plurality of distinct points along the respective
9 lengths thereof;

10 with said means extending generally along the widths
11 of said first and second materials, thereby dividing said band
12 into individual compartments with stretchable overlays.

1 2. The compartmentalized band of Claim 1 wherein said first
2 material is stretchable along its length in forming a band
3 encircling one of the wrist, ankle, arm and leg of a wearer
4 thereof.

1 3. The compartmentalized band of Claim 2 wherein said first
2 material is stretchable in forming a wrist encircling band of
3 substantially 3 inch width.

1 4. The compartmentalized band of Claim 3 wherein said
2 second material is stretchable in forming individual overlays of

3 substantially 3/4 inch width.

1 5. The compartmentalized band of Claim 4 wherein said means
2 secures said first and second materials in individual
3 compartments of substantially 1/2 inch width.

1 6. The compartmentalized band of Claim 5 wherein said means
2 secures said first and second materials at said distinct points
3 by a sewing action.

1 7. The compartmentalized band of Claim 2 wherein said means
2 secures said first and second materials at said distinct points
3 by a sewing action.

1 8. The compartmentalized band of Claim 1, also including a
2 plurality of implements of use individually within said
3 compartments overlying said first material and beneath said
4 second material.

1 9. The compartmentalized band of Claim 1 wherein said
2 second material is of a length to overlies the entire length of
3 said first material.

1 10. The compartmentalized band of Claim 5 wherein said
2 second material is of a length to overlies the entire length of
3 said first material.

1 11. The compartmentalized band of Claim 10, also including
2 a plurality of implements of use individually within said
3 compartments overlying said first material and beneath said
4 second material.

1 12. The compartmentalized band of Claim 11 wherein each of
2 said first and second materials are of elastic composition.
